Portrait of a Graduate

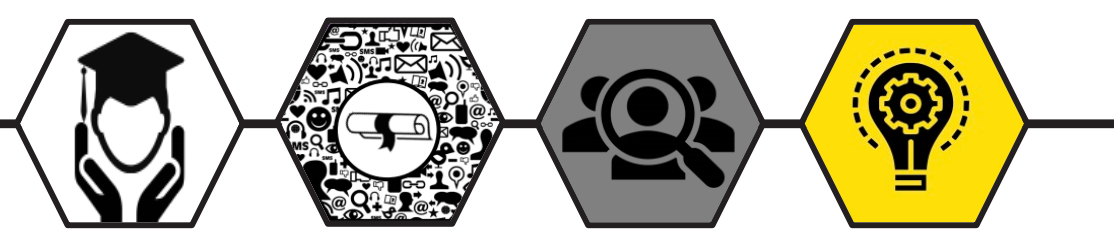

- The Life Ready Graduate (LRG) profile exists to prepare students to have a positive impact on an ever-changing world.
- The LRG profile is comprised of 12 traits grouped as Knowledge, Skills, and Dispositions.

Portrait to Practice

- In addition to the framework of an Instructional Model, assessment tools help encourage and track students’ application of LRG traits and demonstrate progress across subject areas and grade levels. Examples include an LRG Dashboard, Elementary Report Card, and Proficiency Scale.

INSTRUCTIONAL MODEL

STUDENT-CENTERED ENVIRONMENT	LIFE READY TARGETS	PERSONALIZED INSTRUCTIONAL TECHNIQUES	MODERN LEARNING TOOLS
FLEXIBLE Learners have choice and there are multiple ways in which learning happens based on the learners and the content/skills. SUPPORTIVE Emotionally safe; positive, honest and ongoing feedback; strong growth mindset. COLLABORATIVE Learners and facilitators work together toward educational goals in all parts of the learning process.	RIGOROUS Learning goals require learners to reach continually higher levels of performance. RELEVANT Learning goals are connected to topics that are important to the learner. AUTHENTIC & TRANSFERABLE Learning goals are observable in the real world and able to be applied in multiple settings.	SHARED OWNERSHIP Facilitators and learners each take some responsibility for the learning process and the way in which mastery is demonstrated. CUSTOMIZABLE Learners have the ability to individually adapt components of the instructional process. TRANSPARENT Learning goals and progress toward mastery are both easily understood and accessible.	EMPOWERING Tools provide learners with the opportunity to take more ownership of their learning. ENGAGING Tools are used to increase the connection between the learner and the learning goal. EXPANDING Tools provide the ability for learners to widen their learning resources and audience.
